Helispec Inc August 18th 2009

Helispec announced today they have been awarded an Indefinite Delivery Indefinite Quantity (IDIQ) contract to perform work for the United States Army National Guard. The contract is designed for Helispec perform work on a variety of aircraft to include the CH-47 Chinook, UH-60 Blackhawk, UH-1 Huey, AH-64 Apache and OH-58 aircraft, the contract is for five years with up to 100 aircraft per year. Helispec has previously performed work for this customer and has produced the quality of work that directly reflects in the ability to win this IDIQ contract. Aircraft have already started flowing into Helispec.

Helispec has performed work on in excess of 300 aircraft for the US Army and State Agencies. Helispec, is a Female, Disabled veteran, American Indian owned small business located in a federal hubzone in Brantley, Crenshaw County, Alabama.

Helispecs CEO, Sandi Smith stated that this contract has provided the ability to to increase the facilities of Helispec to provide more services for their customers and support for the United States Military. President Steven (Gregg) Holt was involved with the negotiations of the contract and is excited to see it come to fruition stating that this contract is major step forward for Helispec.

Mark Topping, VP stated that in a time of such economic uncertainties it is a major boost for the company and the surrounding area and it is great to be able to provide more positions of long term employment and that the contract provides a bright future for Helispec.

Founded in 2004 by Sandi Smith, Gregg Holt and Mark Topping, Helispec's facilities have grown in size to be able to accommodate 11+ aircraft in work simultaneously. Helispec also boasts a state of the art paint shop and paint booth which can accommodate some of the largest helicopters to date. Helispec's spectrum of Repair and Overhaul services includes in house reworks, paint shop, avionics, upgrades, structural repairs/upgrades, component overhaul materials management and logistics in addition to 24/7 Customer support and contact teams.
