Mr. Gregg Holt
Helispec
269 Foster Street
Brantley, AL 36009-0065

RE: Non-Applicability Letter

Dear Mr. Holt:

This agency has evaluated the information submitted for Helispec on February 23, 2006, and March 3, 2006. The information is for an existing helicopter surface coating operation, located at the Brantley, Alabama facility. Based on the information submitted, ADEM has determined that no state or federal emission standards or thresholds are expected to be exceeded. Therefore, registration in this agency's Air Permit system will not be required at this time.

You should stay abreast of any Maximum Achievable Control Technology (MACT) regulations that are developed for your industry. **Before** you construct new equipment or modify existing equipment effecting air quality, ADEM - Air Division should be notified to determine if permits are required. If, in the future, an increase is made in the emission rate or a complaint is submitted to this office, a re-evaluation will be made.

Should you have any questions regarding this matter, please contact Clarence Fairer at (334) 271-7877.

Sincerely,

Larry W. Brown, Chief
Chemical Branch
Air Division

LWB/CF/cf
