

Gregg:

I appreciate your efforts in complying with the stringent GFR requirements on such short notice; I know that your company put quite a bit of time and money into coordinating ARFF assets and fueling operations. Meeting DCMA requirements can be challenging; you and your company accomplished them proficiently.

I would also like to mention that, although we didn't perform formal process audits, your stripping/painting procedures, re-fueling operations, ground operations, and maintenance procedures that I evaluated met or exceeded DCMA requirements.

Your efforts resulted in a great looking aircraft that I'm sure your customer will be pleased with.

I look forward to working with you in the future.

V/r
